PROFESSIONAL SUMMARY

Full-stack software engineer with 4+ years building scalable web applications in Node.js, React, and cloud-native environments. Strong background in API design, PostgreSQL/MongoDB, and CI/CD. Seeking senior engineering roles in product-led technology companies.

WORK EXPERIENCE

Senior Software Engineer — Infosys Limited, Pune, India

Full-time | Technology | Hybrid | Jun 2022 – Present | Reports to: Engineering Manager (team of 4)

- Led migration of legacy monolith to microservices (Node.js, Docker, AWS ECS).
- Reduced API latency by 38% through query optimization and Redis caching.
- Skills used: Node.js, TypeScript, React, PostgreSQL, AWS, Docker, Kubernetes.

Achievements: Spot Award Q3 2024 for delivery excellence. Promoted from Software Engineer in 2023.

Software Engineer — TCS Digital, Bangalore, India

Full-time | IT Services | On-site | Jul 2020 – May 2022

- Built REST APIs and React dashboards for banking clients.
- Implemented JWT auth and role-based access control.

INTERNSHIPS

Software Development Intern — Zoho Corporation, Chennai

Summer Internship | Engineering | Remote | May 2019 – Jul 2019

Developed internal tooling in Python and Flask. Learned agile practices and code review workflows.

EDUCATION

B.E. Computer Engineering — Vishwakarma Institute of Technology, Pune

Bachelor's | Full-time | Aug 2016 – May 2020 | GPA: 8.4/10 | Duration: 4 years

Field of Study: Computer Science. Location: Pune, Maharashtra, India.

HSC (12th) — Fergusson College, Pune

High School | 2014 – 2016 | Percentage: 86%

SSC (10th) — St. Mary's School, Pune

High School | 2012 – 2014 | Percentage: 92%

PROJECTS

Smart Inventory Tracker — Personal Project

Web Application | Jan 2023 – Mar 2023

Real-time inventory dashboard with alerts. Built with React, Node.js, MongoDB. Outcome: deployed demo used by 50+ beta users.

TECHNICAL SKILLS

Hard Skills: JavaScript, TypeScript, Python, SQL, Data Structures, System Design (Intermediate–Advanced)

Tools / Technologies: React, Node.js, Express, PostgreSQL, MongoDB, Redis, Docker, AWS, Git, Jenkins (Intermediate)

Soft Skills: Communication, Team Leadership, Problem Solving (Advanced)

LANGUAGES

- English — Fluent (Speak, Read, Write)
- Hindi — Fluent (Speak, Read, Write)
- Marathi — Intermediate (Speak, Read)

CERTIFICATIONS

AWS Certified Developer – Associate — Amazon Web Services | Issued: 2023-11-20 | Credential ID: AWS-DEV-88421
Verify: <https://aws.amazon.com/verification/example>

Meta Front-End Developer Professional Certificate — Coursera | Issued: 2022-06-15 | Does not expire

ACADEMIC ACHIEVEMENTS

University Rank 3 — Computer Engineering Batch 2020 — VIT Pune | 2020 | Academic Excellence

COMPETITIVE EXAMS

GATE Computer Science — 2020 | Qualified | Score: 612/1000 | Valid until 2023-06-30

ACCOMPLISHMENTS

Hackathon Winner — Pune Tech Fest 2021 — Pune University | 2021 | Built AI-powered resume parser prototype.

CAREER PREFERENCES

Current CTC: INR 18,00,000 per annum. Current location: Pune, India. Benefits: Medical insurance, food allowance.

Preferred roles: Senior Software Engineer, Full Stack Developer. Preferred locations: Pune, Bangalore, Remote (Hybrid).

Notice period: 60 days. Open to relocation. Expected salary: INR 22–25 LPA.

CAREER GAP

Academic gap: Jan 2020 – Jun 2020 (6 months) — GATE exam preparation. Continued skills: Python, DSA. Completed online ML bootcamp.
